J. W. Buckmaster and Wm. Holmer returned yesterday from Hookers Hot Apriags where they have been testing the medicinal properties of our springs to rid themselves of rheumstism. The results were satisfactory and both gentlemes are relieved and believed to The Silver Platform.

The following in the financial platform of the Democratic party as adopted at Cl.ic go: Recognizing that the money question is paramount, we invite attention to the fact that the lederal constitution named silver and gold together as money metals; and that the first coinage law passed by congress under the constitution, made the silver dollar as a unit of value. and admitted gold free coinage at a raio measured by a silver dollar limit We declare that the act of 1873, deconetizing silver without the knowledge or approval of the American peo ple, has resulted in the appreciation of gold and corsesponding fall in price of commodities produced by the people a neavy increase burden of taxation enriching the money lending class at home and abroad, paralyzing of industry and impovishment of the people. We are unalterably opposed to a single gold standard. Gold monometalism to a British policy founded upon British greed. We demand the mmediate restoration of free and unimited coinage of gold and silver at the present legal ratio of 16 to I without waiting for aid or consent from any other nation. We demand that the standard silver dollar shall be full legal tender, equal with gold for all debt, public or private, and we favor legislation to prevent the demonetization of any kind of legal tender money by private contract.
